CASE STUDY · GOVERNMENT

The brief: PSR compliance without disruption.

WHERE WE STARTED

- Ageing access control
- No PSR-compliant audit trail
- Multiple legacy credential types in use

A Wellington government facility. Swipe →

01 OUR APPROACH

Designed around their operational constraints.

1 **Site assessment**

2 **Zone mapping**

3 **Phased replacement**

4 **CCTV integration**

The facility stayed operational throughout.

02 THE SYSTEM

The system we delivered.

Inner Range Integriti platform

Access control and intrusion on one system.

Zone segregation

Each area restricted to the people who need it.

Encrypted audit trail

Every event recorded and reportable.

CCTV integration

Access events linked to existing cameras.

03 THE OUTCOME

The outcome.

PSR-compliant documentation

Ready for review.

Full audit trail

Across every door and zone.

Single credential

One credential across all zones.

RED WOLF
HIGH LEVEL SECURITY

Facing a PSR review or upgrade?

We have done this before.
